7th + 8th GRADE BLIZZARD BAG #3

NAME: _____

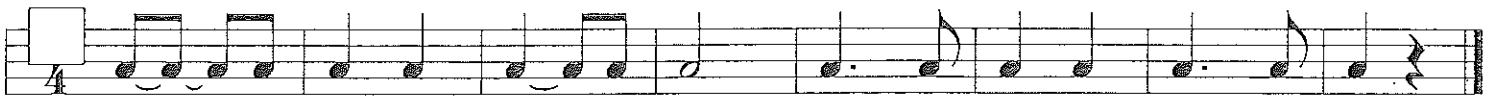
Remember that a **DOT** behind a note INCREASES ITS VALUE BY HALF. Since a quarter note is equal to TWO 8th notes, a **DOTTED QUARTER** is equal to THREE eighth notes:

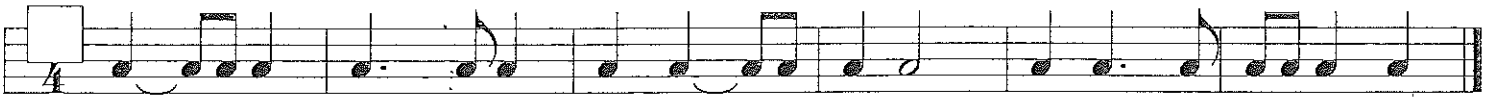
EXAMPLE: SO:

1 beat 1 & 1 1/2 beats 1 & 2

EX. 2 
1 + 2 + 1 + 2 + 1 + 2 +

Find the number of beats in each measure, then fill in the TOP NUMBER of each time signature. Write the counts under the notes, then clap and count each line out loud. Use a metronome to help you keep a steady TEMPO.





Add or subtract the note values, then draw ONE NOTE to finish the equation.
